

FORTH AGE PRODUCTS
23 Altarinda Rd, Suite 213
Orinda, CA 94563

Dear Purchaser of FORTH-75C,

May 7, 1983

Richard Nelson, PPC, suggested that I recommend materials that might help in becoming proficient in FORTH. If this does not apply to you, it may still be helpful to someone you know who has an interest in FORTH.

Your FORTH library:

- "Starting FORTH", Leo Brody, \$16
- "Systems Guide to Fig-FORTH", C H Ting, \$25
- "Fig-FORTH Installation Manual", W F Ragsdale, \$15
- "FORTH Dimensions", back issues, 4 vols, \$60
- "Collected FORTH Articles Reprints", \$10

If you cannot find these locally, order from us. We'll get them out pronto.

If you run into trouble with FORTH, before you give up in frustration, write or call me (415) 763-6636, or someone in your local Fig chapter. If you need a contact, let me know.

John J Cassady

NOTICE

Make a back-up copy of your cassette. Please place the copyright notice and serial number on the copy.

We believe that all the programs on the tape are good. However, the five versions of FORTH offer five-way redundancy. If one or more are bad, they can be reconstructed from one of the good one's.

If you have any difficulty, please contact me by letter or phone.

John J. Cassady
