

Northern California FORTH Interest GROUP

WHAT: Local FIG Meeting Notice

WHEN: 25 February 1984 (4th Saturday)
17 March 1984 (3rd Saturday)
28 April 1984 (4th Saturday)

TIME: 1-5pm (1300-1700hrs)

WHERE: Dysan Corporation Auditorium
5201 Patrick Henry (known as "the Wedge")
Santa Clara, CA

The meeting place has changed!

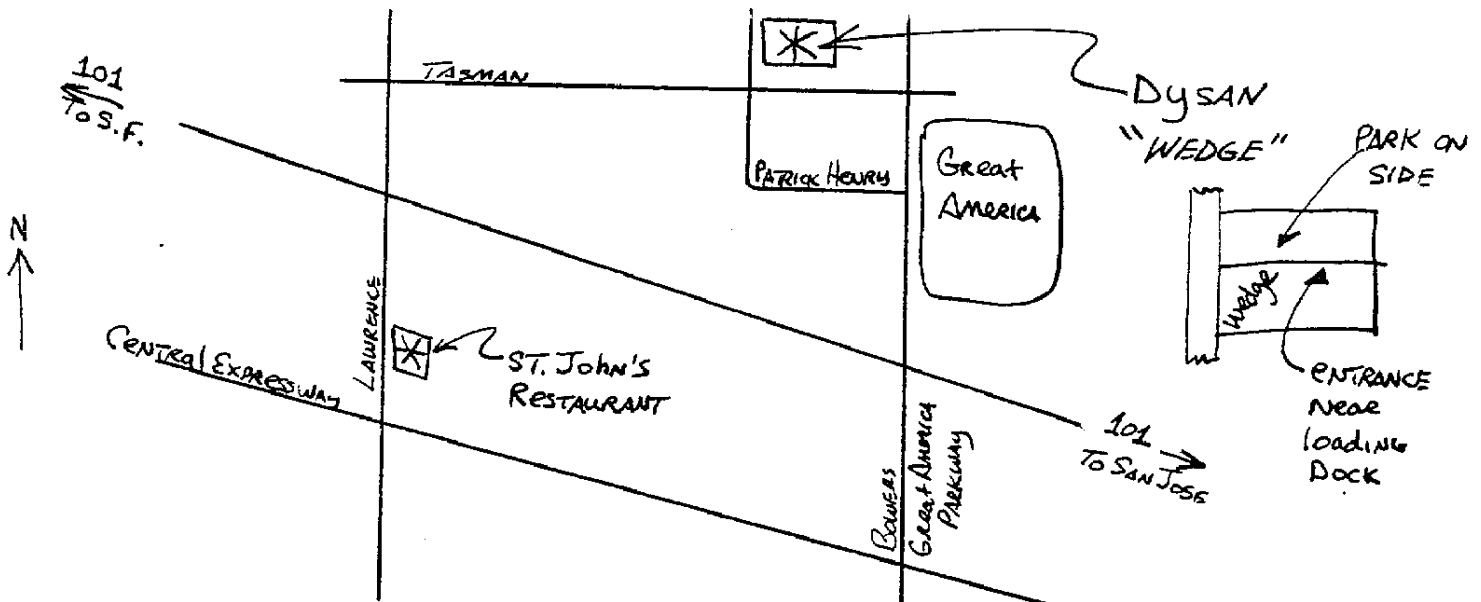

The Northern California FIG chapter used to meet in Hayward. Because there will likely be a Berkeley chapter, we are reforming and meeting in Santa Clara. The February meeting is our first meeting to be held in the Dysan auditorium. We hope that many FIG members from the valley will now be able to attend our monthly meeting.

There will no longer be a morning and afternoon session. We will try to have something of interest for the novice during the beginning of the meeting with more technical talks nearer to the end of the meeting. Because this is our first meeting in this area, we do not yet have a firm agenda.

We are pleased that Mr. Al Hill has agreed to be our guest speaker for the **March** meeting. Mr. Hill is a leading Bay area laser light show designer. His system is unique in that it is FORTH based and can change throughout a show.

Because we are only having an afternoon meeting and many exchanges take place during lunch, we suggest that if you are going out to lunch we try to eat at the same restaurant. We are not reserving tables, but hope to see a lot of you at St. John's restaurant on Lawrence Expressway between 101 and Central Expressway.

If you have any questions, call the FIG hotline (415)962-8653 or use the FIG Tree (300 baud) at (415)538-3580.
